

## Message from the spiritual Master about COVID-19

This message was received by Daniel Souza in the morning of 06/04/2020. The Master Qenan Kazar, Master in the Green Light of the Archangel Raphael(Archangel of the Power of Cure), transmitted his teachings, so everyone can comprehend in a wider perspective what is happening in the pandemy of Corona COVID-19.

The original message of the MASTER QENAN KAZAR is in italic:

*I salute everyone!*

*Humanity lives in a moment of difficulty, that will change the way it lives as incarnated beings and the relationship with solidarity, fraternity and sorority. I come to bring some explanations and recommendations.*

*This virus attacks the respiratory system of the physical body, which means it affects the Throat Chakra(nose, mouth, throat and lungs) and the Heart Chakra(thymus-responsible for the immunity), the chakras of communication and love.*

*Virus is not a living being as you may conceive. A virus is a code, information( in the RNA chain) that infiltrates in the cells and changes their normal function. In this way, the person who is infected can feel in the physical body how they may be misusing communication and love.*

*The virus can not exist if the nature of a person does not allow it: the nature of some permit some viruses to exist and others don't. Mother Earth is a living being where incarnated and not incarnated beings live, but there are boundaries for this coexistence, there are conditions so that all can live in this system. Everytime that is necessary, there will be corrections from the Earth.*

*Specifically about the COVID-19, the planet permitted the mutation of the code, of the information, the so called virus, so one last warning could be given: **COMMUNICATE YOURSELVES WITH LOVE**, otherwise it will be the extinction of the human race as it is known.*

*I say the last warning because there have been other warnings before, like spanish flu for example. In that occasion, humanity was forced to step back from life as it was progressing during the first world war.*

*Recently, the different flus called SARS, avian flu, H1N1, MERS, beside the common flu that every year takes 250.000 people to disincarnate, are the warnings that most of the human kind was ignoring.*

*When a dog growls, it is a warning. When it barks, this is a last warning. And what do we do? Do we pay attention to the warnings or do we ignore them?*

*Most of the people think that if the dog is small, it can be ignored, and everything is ok. With this kind of attitude they are sending a signal that a bigger dog can come, and after that a even bigger one, and bigger, and bigger...until they have to deal with it.*

*Humanity will not be destroyed by a virus. The virus is a warning, to those who do not hear the kind calling of spirituality. If humanity nor Mother Earth doesn't do anything, humans destroy themselves in lies, that will lead to wars. Now there will not be wars of bullets and bombs but silent wars: The war of information.*

*Information is the new gold of humanity. Everything, all big decisions are based in information. But what if they are false? What will happen?*

*The illusion of the senses are taking over the mind of the incarnated humans. The technology must be used. It is part of the evolution of the human consciousness. But it can not be used as a runaway of the human condition of values like honor, the practice of truthful words, care and kindness to the next one.*

*The communication thru the distance, gives the false sensation that one can "say" whatever he/she wants because there will be no consequences. When a few act like this, there will be a "local repair", but when this kind of attitude is spread everywhere, the repair must be global.*

*So, the fight must not be against the virus, this is only the warning. The fight must be against the human behaviors that will lead to the ruin. Lies, not taking responsibility for what one says and share untruthful news is not as harmless as it may seem. This is something very serious!*

*What made human evolution possible, distancing itself from the cavemen, was the transmission of knowledge from one generation to the next. Communication based on love, serves as the foundation for the next generation and this is the*

*base of evolution. Without the transmission of knowledge there wouldn't be progress in human kind.*

*To propagate false words is like having a degenerative diseases, that rot you from the inside.*

*There are no problems in having too much information. The problem is having too much false information or half-truths. The communication must be solid, true, with respect and love to the lives of others.*

*If the practice of spreading lies, half-truths and manipulated-truths weren't so commonly spread, there would be no massive infection from this virus. The virus is spread thru what comes out of the mouth(saliva), to show that the information that has been shared is dangerous.*

*The social isolation, is the physical act in order to avoid that the virus keep being spread. But still there is the communication through distance that allows humans to keep lying. The process of isolation forces people to look inside themselves, their fears and patterns, which are the origin of the pandemic.*

*When a person can not stand himself or when he/she can not stand humanity, and unconsciously searches for the destruction of it. Instead of uniting to transmit the truth, they say: "humanity is banned anyway!"*

*The weakness, the low immunity is generated in the self. When a person gives up of the human kind, he/she turns weak. The pessimism, the lack of perspective, is often called "reality". This is the great lie; because in reality happy people are strong, reputable people are strong, people that try to live consciously are strong. If humanity wasn't important, mother Earth would not be giving this warning(the virus). She would simply let humans be extinguished.*

*The moment has come to humankind to realize that their actions have consequences. Even when these actions are invisible to the physical eyes, they are always visible to the eyes of Mother Earth and to the spiritual realms.*

*In order to change the current global situation requires a change in the behaviour of most of the humankind. Even in social isolation, the virus will stop only when people start to communicate with love, with themselves and others, in person or virtually. Until this happens, there will be a second wave, a third wave, and so on...Not every person will learn, but if the majority achieves it, quickly the*

*virus will cease its function and only those specific cases will have their necessary lessons.*

*2.452 years ago our messenger Sócrates gave his guidelines, and they can possibly be better understood now. Before consuming, producing or transmitting an information, observe:*

*1. **True:** Is the information that you consume, produce or transmit true?*

*2. **Kindness:** The information that you produce, consume or transmit, does it come from a place of kindness or from an anger for humanity? If from a place of anger, do not transmit it, and correct yourself, so this way, you avoid further complications with the virus.*

*3. **Necessity:** The information that you produce, consume or transmit, will it generate more consciousness, collective wisdom, happiness or hope? If not, do not transmit it!*

*I wish that all can comprehend this message and can go ahead well now and during all the planetary transition.*

*I am the Master Kenan Qazar, Ishim of the Archangel Raphael.*

*Comments of the medium Daniel Arcangelista:*

*If it was possible to express in a few words what the Master transmitted, based in what i felt during the channelling, i would say that if we stop spreading dreadful and untruthful news, and instead share message that are helpful(from specialists) or that help spread hope and trust and courage; we would generate a chain reaction with this same energies. This would also help our immune system be stronger and we could face with more ease this collective challenging times. Besides that, we would also create a new social behavior for us and the next generations to come. Also start listening more what the "spiritual world" has to teach us, so we don't face so much suffering in the future.*

*Note: The original text is in portuguese. Translated by Augusto Monteiro Arcangelista.*
